

FOREVERGOLD

AN EXTRAORDINARY LEGACY

All-Steinway School Initiative

THE STEINWAY GIVES STUDENTS A SIGNATURE SOUND

that allows them to hear with crystal clarity how the notes and chords they play actually sound. The great depth, higher registers and harmonies actually train the student musician to play much better thereby heightening the possibility that a good performance will be great. The sounds resonate with something so difficult to define that all you can say is that it is a Steinway.

How do you justify such a fine instrument? The construction is designed to accommodate heavy playing while maintaining a level of instrumental excellence that will give students the opportunity to hear, emulate and prepare to perform at the highest levels in the professional world. The \$1.5 million initiative seeks to raise funds to purchase thirty concert, studio and practice pianos for the entire campus. The initial efforts in this regard will focus on studio pianos and a concert piano for the John S. Burd Center

for the Performing Arts, which hosts many of the university's musical theater events.
